INTERN EXPERIENCE TALK

BRACH :- **Electrical and Electronics Engineering**

INTERNSHIP SEASON :- **Full time employment**

DESCRIPTION OF ROLE :-

SDE

The primary responsibility is to design, develop, and maintain software systems that meet business needs and collaborate with a team of developers, testers, product managers, and other stakeholders to deliver high-quality products.

JOB LOCATION :- **Pune**

SKILLS LEARNED :- **DSA,react js, node js, mongo db,oops,DBMS,SQL**

DESCRIPTION OF ONLINE TEST :-

There were 2 coding questions on the HackerRank platform, which could be solved in any programming language. These questions were a mix of recursion and dynamic programming topics, and different sets of questions were provided to students.

DESCRIPTION OF INTERVIEW :-

In both of my technical rounds, the primary focus was on solving problems efficiently using algorithms. The interviewers asked in-depth questions on topics like linked lists and dynamic programming. Additionally, the interviewers asked about concepts such as OOP, DBMS, and, most importantly, my previous internship experience and the projects mentioned in detail on my resume.

DESCRIPTION OF HR ROUND :-

In the HR round, the interviewer primarily asked about my previous internship experience and the reasons for turning down the pre-placement offer from my previous company. Additionally, they asked some behavioral questions and inquired about my family background.d
